

9/11 Uncensored

Below (in non-italics) are just some of the dozens of military, intelligence, and government officials courageously speaking out on 9/11. Their rejection of the official conspiracy theory is shared by a growing number of scientists, engineers, veterans, pilots, police, firefighters, families of 9/11 victims, and millions of ordinary citizens across the U.S. and beyond who rarely receive mass media exposure. Most quotes sourced to www.patriotsquestion911.org. (Also see: www.911truth.org and www.911blogger.com)

"I knew from September 18th, 2001 that the official story about 9/11 was false. Anomalies poured in rapidly: the hijackers' names appearing in none of the published flight passenger lists... the obvious demolitions of WTC 1, 2, and 7, the lack of identifiable Boeing 757 wreckage at the Pentagon." **Capt. Gregory Zeigler, US Army, PhD, former US Army Intelligence Officer**

"The issue of knowing who was really behind the 9/11 attacks is of paramount importance to the future of our country, because the 'official' assumption that this was the work of 19 Arab amateurs does not fit the facts and has led directly to the deplorable Patriot Act, the illegal Iraq war, NSA spying on ordinary Americans and repeal of habeas corpus."

David Griscom PhD, Research Physicist (ret.) Naval Research Laboratories

"Being a civil engineer & understanding the laws of physics, I know that a building cannot fall at free fall speed without the floors already falling, giving no resistance. I wish our Congressman were so smart, showed some backbone & got a truly independent investigation going... The 9/11 Truth movement has shown me that our press is every bit as controlled and spits out as much propaganda as I thought Pravda did for the old Soviet Union." **Commander Dennis Henry, U.S. Navy Reserve (ret.) C.E., P.E.**

"Four years ago an enormous media event changed the course of the world. Billions of people were given only one explanation for it which was false... Anyone who dares to question it is treated as if he were a fool... The media are silent. I believe you know what event I'm speaking of, Sept. 11, 2001." **Guilietto Chiesa, Member of European Parliament, Committee on Security & Defense, 11/18/05**

"The Patriot Act was actually written prior to 9/11 with the intention of destroying the U.S. Constitution and Bill of Rights... It was all premeditated. Treason, a false flag military operation... scripted and executed by rogue elements of the military, intelligence and private contractors working for the U.S. government. The government and the news media were once again lying to the world about the real terrorists" **Lt. Jeff Dahlstrom, former U.S. Air Force Pilot**

"He (Bin Laden) has not been formally indicated and charged with in connection of 9/11 because the FBI has no hard evidence connecting Bin Laden to 9/11." **Rex Tomb, FBI to Muckracker Report June 5th, 2006 ...Where were the headlines?**

"The best I can say is that they (9/11 Commission) really botched the job. At worst, I think that the Commission Report is treasonous." **Bogdan Dzakovic, Counter Terrorism Expert, Security Division FAA, Witness, 9/11 Commission**

"They (9/11 Commission Report) either refused to interview all relevant experts and witnesses, or they censored the reports provided to them by those with direct and first hand information." **William Weaver PhD, former US Army Signals Intelligence Officer**

"There is something very sinister that really troubles me. What does the 9/11 Commission got to hide?" **Curt Weldon, former US Congressman, Pennsylvania; former Chairman, House Armed Services Committee**

"The official story of what happened on 9/11 is a lie." **Philip J Berg, former Deputy Attorney General, Pennsylvania**

"There's a strong body of evidence showing the official U.S. government story of what happened on Sept. 11, 01 to be almost certainly a monstrous series of lies." **Bill Christison, CIA Veteran, former National Intelligence Officer**

"If we don't expose the 9/11 lie it will happen again." **Ted Muga, Naval Aviator (ret.), Pan-Am Pilot (ret.)**

"Based on my 11 year experience as an FAA air traffic controller, I knew within hours of the attacks, it was an inside job." **Robon Hordon, former FAA Air Traffic Controller, Boston**

"Only the U.S., not Al-Qaeda, has the ability to break all of its standard operating procedures to paralyze its own emergency response system." **Barbara Honegger, MS-Senior Military Affairs Journalist, former White House Policy Analyst**

"There was a dearth of visible debris on the relatively unmarked Pentagon lawn, where I stood only minutes after impact. I saw nothing of significance – no airplane metal or cargo debris... The visible lack of evidence may have also been apparent to the Secretary of Defense, who in a slip of tongue referred to the craft that hit the Pentagon as a 'missile'... It's as a scientist that I have the most trouble with the official government conspiracy theory mainly because it does not satisfy the rules of probability or physics".

Lt. Col. Karen U. Kwiatkowski, US Air Force (ret.) PhD, former Political- Military Affairs Analyst

"Any unbiased rational investigator could only conclude that a Boeing 757 did not fly into the Pentagon." **Col. George Nelson, US Air Force (ret.), former Accident Investigator and Airplane Parts Authority**

"When you look at the crash site (Pentagon) void of airplane parts, the size of the hole left in the building and the fact that the projectile's impact penetrated concrete walls, it looks like the work of a missile. And when you look at the damage it was obviously a missile." **Major Douglas Rokke, US Army (ret.) PhD**

"Here we are talking about plastic knives and using American Airlines flight filled with our citizens, and the missile to damage this building (Pentagon)" **Rumsfeld in interview with Parade Magazine, Oct. 12, 2001.**

"I have 6,000 hours of flight time in Boeing 757's and 767's and I could not have flown it the way the flight path was described."
Commander Ralph Kolstad, Retired U.S. Navy 'Top Gun' Pilot (Also see: www.pilotsfor911truth.org)

"As a former General Electric turbine engineering specialist and manager, I can guarantee you that none of the high tech, high temperature alloy engines would be completely destroyed, burned, shattered, or melted in any crash or fire. Wrecked yes, but not destroyed... Attempts to obscure the facts by calling them a 'Conspiracy theory' does not change the truth. It seems that something is rotten in the State". **Capt. Daniel Davis, former US Army Defense Officer and NORAD Tactical Director**

"The government story of what they handed us about 9/11 is total B.S. plain and simple. The airplane could not have been flown at those speed which they say it did without going into what they call a high-speed stall. The airplane won't go that fast if you started pulling those high G maneuvers at those bank angles. To expect maneuvers with a total amateur at the control is simply ludicrous."
Capt. Russ Wittenberg, US air force (ret.) Commercial Pilot for PanAm and United including 2 of the Sept. 11 planes

"I kick myself that when it initially happened that the light didn't go off... In my opinion there's no doubt that building (WTC 7) was brought down with demolition."
Jesse Ventura, former Governor, Minnesota, former Member, U.S. Navy Underwater Demolition Team

"We know that this is strictly impossible for any building much less steel columned to 'pancake' at free fall speed. Therefore it is non-controversial fact that the official explanation of the collapse of the WTC building is false".
Paul Roberts, PhD, former Assistant Secretary of the US Treasury

"Our government has been hijacked by the means of a new 'Pearl Harbour' and a lot of otherwise good and decent people are gullible enough to think that the first three steel framed buildings in history fell down because they had some fires that the firefighters on the scene said could be knocked out with a couple of hoses. Your countrymen have been murdered and the more you delve into it the more it looks as though they were murdered by our government who used it as an excuse to murder other people."
Lt. Col. Shelton Lankford, US Marine Corp. (ret.)

"After four years of research, I am 100% convinced that the attacks of September 11th were planned, organized and committed by the treasonous perpetrators that have infiltrated the highest levels of our government. It is time to take back our country... The collapse of Building 7 shows beyond any doubt that the demolitions were pre-planned. It is simply impossible to demolish a 47 story building over a coffee break. It was also impossible to predict the buildings collapse as BBC did... unless it was pre-planned. Further damning evidence is Larry Silverstein's video taped confession in which he states 'they made that decision to pull (WTC 7) and we watched the building collapse'." **Lt. Col. Guy Razor, MS US Air Force, (ret.) former Instructor, USAF Fighter Weapons School and NATO Tactical Leadership Program** (Also see: **Architects and Engineers for 9/11 Truth: www.ae911truth.org**)

"I first began to suspect that 9/11 was an inside job when the Bush-Cheney administration invaded Iraq... We can prove that the government story is false." **Morgan Reynolds, PhD. former Chief Economist, US Dept of Labour**

"After five years of talking to people in the Intelligence community, in the military, foreign intelligence agencies, people from the air traffic control community and the FAA, I came to the conclusion that what we saw on the morning of September 11th was a result of a highly compartmentalization covert operation to bring about a fascist coup in this country."
Wayne Madsen, former US Navy Intelligence Officer, Specialist in Electronic Surveillance and Security

"The evidence that Al-Qaeda is actually an arm of the U.S. government is voluminous... This whole thing was not engineered from a cave in Afghanistan... It's hard for people to believe that their government could be as incideous as this one but the evidence is there... you can't put anything past them". **Daniel Hamburg, former U.S. Congressman**

"I am forced to conclude that there is sufficient evidence to indict Dick Cheney, Karl Rove, and others close to the Wall St. gangs of the neo-Nazi coup de etat and kickoff the clash of civilizations".
Robert David Steele, US Marine Corp. Infantry and Intelligence Officer, former CIA Clandestine Case Officer

"So who cares that the 9/11 Commission chose to believe that Dick Cheney did not enter the White House bunker until 'shortly before 10:00', twenty minutes after the strike on the Pentagon? Surely the Vice President would not fib, so the Commission threw out the testimony of several eyewitnesses, including Norman Mineta, the Transportation Secretary. Mineta must have been making it all up when he testified that he joined Cheney in the bunker at about 9:20 and heard Cheney reaffirm an apparent stand-down order just before the Pentagon was struck". **Ray McGovern, former CIA Analyst and Presidential Briefer**

"Who gained from 9/11? Who covered up crucial information? Who put our patently false stories in the first place? When you put all of these things together, I think it is pretty clear that it's highly placed individuals in the administration with all roads passing through Dick Cheney." **Col. Robert Bowman, US Air Force (ret.) former head of Star Wars, PhD in Aeronautics and Nuclear Engineering, Recipient of the Eisenhower Medal and dozens of prestigious national awards.**

On Nov. 30, 2007, Francesco Cossiga, former Italian President, former Undersecretary of Defence & False Flag Operation Expert, instrumental in orchestrating 'Operation Record' went on record as saying 9/11 was a False Flag Operation.

"I know that 9/11 was an inside job. The police know it's an inside job, and the firemen know it too".
Paul Isaac Jr. Auxiliary Lieutenant, NYC Fire Dept.

"A crisis is an event which can force democratic governments to make difficult decisions like those required to create a North American Community... It's not that I want another 9/11 crisis but having a crisis would force decisions that otherwise might not get made." Robert Pastor, key NAU architect (12,15,06 Article J. Corsi)
